COLLISION REPAIR & REFINISHING TECHNOLOGY

The Collision Repair and Refinishing Technology program prepares students to enter the workforce with skills such as body and frame restoration, metal repair, refinishing processes, and computerized estimates. Training includes the use of various hand and power tools to prepare, finish, and paint damaged surfaces. Hands-on experience also covers emerging repair techniques, including plastic welding and aluminum repair. Throughout the program, students will have the ability to earn several industry-recognized certifications.
