UACCM **CAREER CENTER**

CONSTRUCTION TECHNOLOGY

The Construction Technology program will prepare students for a career in the construction industry. The curriculum is comprised of a comprehensive sequence of courses that combine theory and practical applications. The program includes course work in applied mathematics, basic hand/electrical tool safety, OSHA regulations, construction fundamentals, carpentry, drywall, and masonry. After successful completion of the program, students will be better equipped to enter the workplace in a construction-related career.

Students who successfully complete degree requirements should be able to understand and apply basic construction principles.
